

# Water Inc.<sup>®</sup>

## NKBA Design Contest

Our goal is to get to know the wonderful designers in our community. And for you to get to know us (and our products) a little better too! Why we have been so passionate about water filtration since 1977. Plus, we love to see our products installed in “real life.”

**Contest dates: March 2019 – December 2019**

**Feature Water, Inc. products in your design project!**

### We will gift you for free:

One Body Glove Water Filter System\* **AND** One Water, Inc. Lead Free Accessory Faucet\*  
**OR** One Body Glove Full Flow system\*

*\*These products are required to be featured, and provided for free to the first 20 entries, in exchange for your submission*

### Upgrade products offered at a generous discount:

• EverHot Instant Hot\*\* • EverCold undercounter chiller\*\* • Enviropure Air Switch\*\* • Dishwasher Air Gap\*\*

*\*\*Additional upgrade products can be acquired from us at a personal use discount*

## Contest Requirements

**Your Image Submission:** Submit to us at least 3 images of your finished project: kitchen or bath. Professional images are suggested but not required. You must include one image of each of the following: an overview kitchen/bath shot, a close up of the sink with our accessory faucet & an undercounter shot of our products installed under the sink.

**Installation Note:** Please make sure your plumber installs the filter system near the front of the sink for an easy annual cartridge change. The EverHot tank and EverCold chiller should also be within reach so the temperature dial can be adjusted. This will assure our products are easily accessible for your client.

**Your Design Information:** We will be posting the submission photos on our social media platforms. Provide us with the location, photographer's name if professional photos were taken, and names that we need in order to give proper “credit” in our tags. Including the Instagram handles of those involved would be helpful!

## Grand Prize

Our Water, Inc. staff will vote on their favorite design, and the winner will be awarded a full suite of Water, Inc. products: a Body Glove BG-12000 System, your choice of faucet with an EverHot and EverCold, and Body Glove Full Flow System for drinking water in the master bath. **Second Prize** will win a Body Glove BG-12000 System and your choice of faucet.

## How to Enter

Start by choosing your Accessory Faucet & Finish from the faucet guide on the second page. Fill out the *intend to enter/product order form* on the third page and return to Michele. We will ship you the product for installation in your design project. Once your project is done and you have your photos ready, submit your pictures and info to us for the contest. If you need more information, or would like to know where our products are locally carried, Michele would love to talk to you.

# CHOOSE A FAUCET STYLE FOR YOUR DESIGN ENTRY.

**COLD ONLY FAUCETS ARE GIVEN FREE FOR YOUR ENTRY. YOU CAN UPGRADE TO AN EVERHOT® INSTANT HOT&COLD FAUCET OR HOT ONLY FAUCET AT A GENEROUS DISCOUNT.**

Available finishes for each style, and faucet specs are listed.

These Accessory Faucets connect to our Body Glove Water Filter System and will be installed alongside a main kitchen faucet.

If you do not want to use an Accessory Faucet, you may choose to install our Body Glove Full Flow Filter System and achieve filtered water from the main kitchen faucet.
